The Children's Hospital of Philadelphia®

Hope lives here.

Alan's Legacy is raising funds to help Children's Hospital of Philadelphia. Our latest goal is \$25,000 to help CHOP with the important work of fighting childhood cancer. This amount will also allow us to name a special part of the building in honor of Alan.

The Alan Bell rooftop garden will be a beautiful, serene and welcoming environment where children and their families can come before/during/after their cancer treatments. We hope that the garden experience will help children with their recovery, as well as help families get some fresh air and take a break from their difficult experience.
